

PENTATHLON CANADA

Qualification and Selection Policy

Senior National Team

Junior National Team

Youth National Team

Master National Team

International Competitions

Major Games

This document outlines the policies for Pentathlon Canada's National Team selection and competition qualification requirements.

Introduction

Pentathlon Canada is dedicated to developing high performance athletes with a focus on competing at the highest levels of international competitions. Its mandate and the nature of its HP policies are invested in best serving that mission; qualification and performance at Major Games and Major Championships. This document outlines the policies as they pertain to National Team qualification and competition selection.

For clarifications or questions on the content of the Selection Policy, please contact the Pentathlon Canada HPD at ian.soellner@gmail.com.

Policy amendments will be communicated to Pentathlon Canada members.

Pentathlon Canada National Team Criteria

- Current Pentathlon Canada registered member.
- Canadian citizen with a valid passport.
- Participation in the most recent National Pentathlon Championships. *
- Signed NSO – Athlete Agreement.
- When applicable, satisfaction of COC and UIPM criteria.

Specific National Team Standards

- The following must be satisfied in addition to the above requirements.

* Allowable Exemption: Criteria for a waiver shall include but not be limited to; injury, school requirements, personal family emergencies, conflicting international competitions or other extenuating circumstances confirmed by Pentathlon Canada High Performance Director.

Notes

- Reaching a National Team standard does not imply qualification for any specific event. It does ensure priority in event selection, and support, to the extent possible, from Pentathlon Canada.
- An achieved standard is valid for the current and following competition season until December 31 (by calendar year). If a standard is updated, the most recent standard applies.
- Athletes may compete at events which correlate to the criteria they have met specific to each competition category (Senior, Junior, Youth, Master).
- Athletes not reaching an above standard are eligible for UIPM Category C and external nationally-sanctioned events.
- Pentathlon Canada events include Winter National and Summer National Championships.
- The 'Athlete Pool' refers to those athletes who competed in the most recent National Championship. Athletes with an exemption may request the HPD (by email) to be added to the 'athlete pool.'
- Athletes are requested to notify the HPD (by email) when they have achieved a new standard.
- Priority is given as per the process below.
- Specific competitions (i.e. Major Games and certain World Championships) will follow a specific qualification pathway.
- Canada Cup events are designated competition within Canada where athletes from all provinces have an open invitation to compete and international competitors may be invited to participate. The event is pre-approved by Pentathlon Canada (PC) as a designated qualifying competition within the selection criterion. A Canada Cup event will be verified by a PC Technical Delegate to ensure scoring and event procedures are consistent with the UIPM rules.

International Competition Selection Criteria

Pentathlon Canada must approve all athlete registration for any competition outside of Canada. Athletes must apply to Pentathlon Canada to participate in all international competitions.

- Athletes must have met the applicable Pentathlon Canada National Team Standard.
- Athletes are only eligible to participate in the riding if they have the relevant UIPM riding license (Junior or Senior level competitions).
- Selection for international competitions is based on the available entry quotas in ranking priority order.
- Athlete competition application must be submitted in writing (email) prior to the Entry Form A submission date.

Olympic and Pan American Games Selection Criteria

The selection process to compete at a Major Games will be published prior to the selection process and will include the Canadian Olympic Committee and UIPM selection requirements.
